

## *Fall Symposium*

### **From Neurons to Human Diseases: A Sampling of Research in the UCLA Department of Neurobiology**

**Oct 3, 2008**

1:00 pm-5:00 pm

### **Neuroscience Research Building Auditorium**

- 1:15 **Welcome:** Marie-Francoise Chesselet, MD, PhD, Chair, Dept of Neurobiology  
Gerald Levey, MD, PhD, Dean, David Geffen School of Medicine
- 1:30 Dean Bok, PhD, Professor of Neurobiology and Jules Stein Eye  
Institute  
**“Vitamin A: from Normal Vision to Macular Degeneration”**
- 2:00 David Glanzman, PhD, Professor of Physiological Sciences and  
Neurobiology  
**“Pavlov’s Slug: Learning about Memory from the Bottom Up”**
- 2:30 Jerome Engel, MD, PhD, Professor of Neurology and Neurobiology  
**“Epilepsy: Demystifying the Sacred Disease”**
- 3:00 **Coffee Break**
- 3:30 Carolyn Houser, PhD, Professor of Neurobiology  
**“GABA Neurons in Epilepsy: What are They Doing?”**
- 4:00 Bennett Novitch, PhD, Professor of Neurobiology  
**“Making Motor Neurons: from Stem Cells to Motor Circuits”**

**~ Reception to Follow ~**

**ALL ARE WELCOME!**
